JAPANESE PUSHING RUSSIANS TO HARBIN

Several Small Engagements Are Reported To Tokio.

TO CELEBRATE MUKDEN VICTORY

The Profits on Tobecco Monopoly Has Netted Mikado's Empire More Money Than Anticipated—Search Is Being Made for Missing Austrian.

Tokio, April 5, 3 p. m.—Imperial army headquarters reported today says:

A part of our Changtu force drove the Russians out of Tsulu shu, 2 miles north of Changtu and also out of Sumiencheng, 9 miles west of Tsulushu and occupied both places on April 3.

"After driving the enemy from the neighborhood of Soumiaotzu, 6 miles southeast of Tsulushu our force reached the vicinity of Santaukou at noon whe nthey were fired upon frequently by about 500 Russians, retreating northward along the railroad. Our force dispersed them.

Celebration of Victory Postponed.

Tokio, April 6.—The profits from the tobacco monopoly for the first year are 27,000,000 yen (about $13,500,000). This exceeds the government's estimates 7,000,000 yen.

The celebration of the victory at Mukden has been postponed until next Monday, owing to a storm which occurred today. The business men and labor guilds today arranged an enormous processions, which picturesquely garbed, formed at Haibiya park and marched to Uyeno park. Passing the palace each unit halted and cheered the emperor, his cabinet and commanders of the army and navy. Exercises were held in Uyeno park. The minister of war, General Terauchi, responded in behalf of the army and Baron Yamamoto, minister of the navy in behalf of the navy. Fireworks and sports concluded the exercises.

The torpedo boat destroyer Arare was successfully launched at Kure today.

Looking for Lost Austrian.

General Kuroki's Headquarters, in the Field, April 4, via Fusan, April 5.—The Japanese army has been making a fruitless search for information as to the fate of Count Scheptizizky, a military attache of that government with the Russian army in Manchuria. Count Scheptzizky has been missing since the battle of Mukden. He is not among the prisoners or wounded in the Japanese hands. It is possible, however, that he may have escaped into Chinese territory. If killed he has probably been buried as a Russian, among the dead of that army.

MINE SUPERINTENDENT KILLED.

His House Was Blown to Atoms While He Was Sleeping.

Tucson, Ariz., April 6.—T. C. Lamb, superintendent of the Tres Amigos mine, has been blown to pieces by an infernal machine while asleep in his house. Two sticks of dynamite were placed under a corner of the house and 5 feet of fuse attached. When it exploded the house and contents were scattered all over the hillsides. Fragments of Lamb's body were found at points a half mile apart. Lamb's wife and family were in the east on a visit.

At the coroner's inquest a verdict of murder by persons unknown was returned, but arrests are expected to follow. Lamb had been involved in several bitter disputes about mining property. A strict investigation is being made.

President of Carnegie Institute Talks.

New York, April 6.—At a dinner given by Robert S. Woodward, the president of the Carnegie Institute, Washington, by his former colleagues of Columbia university, Andrew Carnegie made a brief speech in which he said: "The charter of the Carnegie institute pledges it to a broader scope of learning than any other seat of learning in the world. Its policy will be to co-operate with all other institutions in the spirit of emulation."

KANSANS SEE PRESIDENT.

As Train Stopped to Change Engines He Makes a Short Talk.

Vinita, I. T., April 6.—President Roosevelt's special train stopped at Parsons, Kan., at 7:30 o'clock to change engines and a crowd of 5,000 persons gathered around the private car "Rocket," and attracted the attention of the occupants by shouts of "Where is he?" several negroes called: "We have been waiting since 4 o'clock to see you."

The president hurried his dressing and stepped to the rear platform, where he was cheered. The citizens of Parsons had sent to the car a huge bunch of American Beauty roses, which was placed on the breakfast table. The crowd was not satified with merely seeing the president, and in response to a demand for a speech, he greeted the people briefly.

Stop in Indian Territory.

Muskogee, I. T., April —esident Roosevelt paid a tribute to the people of Indian Territory and commended them as eligible for statehood in a brief speech at Vinita, where a stop of 2 minutes was made at 9:08 a. m. The little city was more profusely decorated than any place through which the presidential train had passed. The station was decorated with flags and bunting and an immense sign suspended at the point where the "Rocket" stopped bore the words: "Welcome to our president."

Stay Granted in Execution.

Cincinnati, April 6.—Mrs. Cassie L. Chadwick was today granted a stay of execution by the United States circuit court of appeals the decision being announced by presiding Justice Lurton when court convened. The stay of sentence is to hold until the further order of the court, it appearing that a writ of error had been sued out within the required 60 days and a copy of the same had been lodged in the clerk's office of the lower court. After the decision of the court had been announced, Judge Francis J. Wing, counsel for Mrs. Chadwick, said that he expected to be able to present the appeal some time during the month of May.

Will Go to Isthmus Soon.

New York, April 6.—Theodore P. Shonts, the newly appointed president of the Panama canal commission, arrived here from Washington and will today proceed to his home in Chicago. He expects to start for the isthmus next month. In talking of the work to be done, he said: "One of the rare relations that is presented in the personnel of the commission charged with such an important work is that of Engineer Wallace and myself. Not only have we been fast friends since we were boys, but the families—father and mother of each—were the closest friends. Mr. Wallace's father was the founder and president of Monmouth college, from which I was graduated."

Everything Quiet in Haiti.

Washington, April 6.—A cablegram from Minister Powell at Port-au-Prince was received at the state department today which gives assurances that everything was quiet in Haiti and that the cruiser Brooklyn, which went to Haytien waters on the rumors of gathering revolutions, has been ordered away. Rumors have reached Minister Powell of some trouble at Monti Cristi, in Santo Domingo, but nothing of a definte character is known. Reference to this uprising probably relates to the disturbance reported a few days ago. The Brooklyn is going to Monti Cristi where Admiral Sigsbee will shift his flag from the Newark to the Brooklyn.

Enjoined from Revoking Charter.

New York April 6.—An order directing the J. Hannahan, grand master of the Brotherhood of Locomotive Firemen, and Charles A. Wilson, acting grand master, and other officers of the grand lodge, to appear before him on Friday, April 7, to show cause why temporary injunctions ought not to be issued restraining the grand lodge from revoking the charter of Just In Time Lodge No. 149, of the Brotherhood of Locomotive Firemen, was signed by Judge Lacombe in the United States court today.

RUSSIA LOOKS FOR GENERAL UPHEAVEL

The Terrorists Are Displaying Renewed Activity.

SITUATION IS GETTING CRITICAL

Employers of Labor Frankly Admit that They Can't Continue Their Businesses and Are Shutting Down Their Plants.

St. Petersburg, April 6.—The prospects of a general upheaval of the city and country with the advent of spring increased rapidly.

Evidence accumulates that the radical forces are acting in unison and awaiting a signal which it is generally believed will be given shortly after the Russian easter. The terrorists are showing great activity and reports from all over the country proves that workmen who, in many cases, have been formulating petty demands which are no sooner granted than they are succeeded by others are acting under instructions from the revolutionary leaders who are only biding their time.

The employers frankly admit that it is impossible to try to continue their business and some of them have already shut down. The people are plainly becoming panicky and the authorities cannot conceal their alarm. The guard regiments which usually go to camp in April, will be retained in St. Petersburg, it is announced until June ostensibly in order to allow the camps to be cleaned in view of the danger of cholera, which is regarded as being so serious that the sanitary authorities have ordered the immediate cleaning of the streets, sewers, cesspools and canals of the capital, and have issued specific instructions to householders and especially in the poor class districts where the people live in cellars.

The dilatory tactics of the government elaborating the scheme for popular representation provided for in the imperial rescript of March 3 tends to intensify the acuteness of the coming crisis, as the Liberals are firmly convinced that the real purpose of the beaureaucracy of the crisis is safely passed, is to smother the whole reforms an assembly and the date of the opinion on this subject is apparent from the fact that over 100 municipal councils and public institutions have already petitioned for participation in the task of working out the project.

An intimation that it is proposed to send a commission abroad to study the foreign parliaments which would require months has raised another outcry.

The Novoe Vremya solemnly warns the government that the situation is too dangerous for such maneuvers, declaring that unless the government form an assembly and the date of the election is immediately announced, it is impossible to restore even a measure of public confidence, and the government will lose all chance of securing the suport and sympathy of Liberals who do not believe in violence when the disorders which are predicted of the furure break out.

Bad Negro Kills Four Blacks.

Batesville, Ark., April 6.—John Dow, a negro, went to Sulphur Rock to see his wife, who was at her father's home, and because she refused to return with him, he drew a pistol and shot her dead. Then he shot and killed his wife's mother and another negress. His father-in-law secured a shotgun and shot Dow, but not fatally, the latter being able to return the fire, killing his father-in-law. The sheriff and coroner have gone to the scene of the murders.

McCormick's Interview Denied.

New York, April 6.—A dispatch from the Herald's correspondent at Paris denies the authenticity of an interview with Ambassador Robert S. McCormick, cabled the Herald yesterday from Paris. The dispatch in question quoted the ambassador as having discussed the war sentiment in Russia, but it now appears, the correspondent explains, that the ambassador's name was used without warrant.

DEMOCRAT WINS IN CHICAGO.

Issue Was Municipal Ownership of Public Utilities.

Chicago, April 6.—A political tornado yesterday overwhelmed one of the most ruggedly unique leaders in the country. Incidentally the Republican party met defeat in a memorable effort to capture the mayoralty of Chicago. As a direct result the city is officially committed to the policy of the quickest possible cessation of private franchises for public utilities. Municipal ownership is especially threatening street car lines, valued high up in the millions.

After winning successfully four remarkable biennial fights of independents against the regular Republican party organization here, John Maynard Harlan, son of Associate Justice Harlan, of the United States supreme court, was a loser as Republican candidate for mayor. The defeat is attributed to an extraordinary whirl of causes, starting with political revenge and taking in a wide sweep, embracing the most up-to-date socialism as a factor. The victor is Judge Edward F. Dunne, a Democrat.

Judge Dunne was elected by a plurality of 24,348 and received a majority of 945 of all the votes cast. He also had the distinction of receiving the greatest vote ever cast in Chicago for a candidate for the office of mayor. He was given 161,659 votes out of a total of 322,373. Mr. Harlan, the Republican candidate, received 137,411. Collins, the Socialist candidate, 20,323, and Stewart, Prohibition, 2,980.

ST. LOUIS IS DEMOCRATIC.

Mayor Rolla Wells is Re-Elected by a Good Sized Plurality.

St. Louis, April 6.—Complete first returns from last night's municipal election returns give Mayor Rolla Wells, Democratic candidate for re-election, a plurality of 1,448, over Judge John A. Talty, Republican. The vote for the candidates was as follows:

Wells, 44,208; Talty, 42,760; Lee Merriwether, Independent, public ownership, 3,323.

Never before in the history of St. Louis has a mayoralty election been fought so stubbornly. Until complete returns from the last ward had been received, the issue was in doubt, and the official canvass of the returns may make a change in the complexion of the result. The candidates for city offices either ran slightly ahead of or behind their party leaders, and the Democrats and Republicans about equally divided honors for the offices other than that of mayor.

The proposition to increase the bond indebtedness of the city by $5,000,000 for the purpose of making public improvements which was strongly endorsed by Mayor Wells and his party, was overwhelmingly defeated. Two amendments to the city charter were also defeated by large majorities.

$7,000,000 Value of Stanford Estate.

San Francisco, April 6.—The Examiner says today: "It is now known that Mrs. Jane Lathrop Stanford left an estate valued at $7,000,000. A formal inventory has not yet been made but the interested parties have already closely figured the present worth of the several properties, making up the value of the estate and it will not fall below the amount mentioned. According to Mrs. Stanford's will, $3,125,000 is to go for legacies and bequests. This will leave a residue of not less than $3,875,700, all of which by the terms of the will is to go to swell the funds of the Stanford university.

Absent Witnesses Cause Postponement.

Lexington, Ky., April 6.—On account of the continued absence of the state's witnesses the case against the Hargises and Callahan, charged with the murder of B. B. Marcum, was again postponed until Friday. The absence of the state's witnesses from court caused the attorneys to engage in a tiff in court, it being charged that what were called "Breathitt county methods," were being indulged in to keep important witnesses away. The court announced a determination to bring the witnesses into court under an order of arrest and to place them in jail during the trial.

DOUBLE HANGING AT TENNESSEE CAPITAL

Two Negroes Pay Death Penalty For Crime.

SANG HYMNS ON THE SCAFFOLD

One Had Killed His Crippled Child, While the Other Killed His Mother-in-Law Becausee She Caused His Wife to Leave Him.

Nashville, April 6.—Andrew Hibbett and James Scudder, negroes, were hanged together in the jail yard here at 7:55 o'clock this morning.

The former's neck was broken and the latter strangled to death.

Scudder murdered his crippled son, and Hibbett killed his mother-in-law. Both men courageously met their fate. They sang "Old Time Religion" just before the drop fell. Neither made any statement on the gallows.

The crime for which the negro, Jim Scudder, was sentenced to hang today was the murder of his 3-year-old child, James Alfred Scudder. Scudder's wife had died and his mother had been keeping the chil for him. Finally she was unable to keep the child longer and sent him to Scudder. On a cold morning in February a year ago, Scudder was seen with the boy, going south from Nashville. A few weeks later the body of the dead child was found in a canebrake on the Franklin road near this city. Scudder claimed that he had given the child to his uncle to keep, but it developed at the trial that the uncle had been dead four years.

Scudder was 51 years of age, was born in slavery.

Andrew Hibbett, negro, was sentenced to hang for the murder of his mother-in-law, Mary Norvelt. He claimed that she had wrecked his happiness and had caused his wife to leave him.

LARGE RAILROAD DEAL.

J. P. Morgan & Co. Secure Valuable Property in Chicago.

New York, April 6.—It is positively stated in banking circles says the Herald, that control of the Chicago Terminal Transfer railroad company has passed to new interests.

It is understood J. P. Morgan & Co. have bought a majority of the securities and intend to turn the property to a great trunk line entering Chicago, presumably a Vanderbilt road. Members of the firm did not deny the acquisition of the company, but said they could make no statement now.

This company owns 760 acres, of which 50 acres are in the center of the business district with 273 miles of railroad. It has a capital stock of $30,000,000 and outstanding first mortgage bonds of $16,500,000.

Dredgemen's Union Orders Strike.

Chicago, April 6.—Hundreds of men employed on railroad construction in the southern states will be thrown out of work today as the result of strike orders just issued from Chicago. The edict came from officials of the steam shovel and dredgemen's union, which has declared the contracting firm of W. D. Oliver & Co. "unfair." Railroad building in Tennessee, Kentucky and Missouri will feel the effects of the strike. Unless the dispute is settled a spread of the strike is threatened to include the entire southern territory.

Girls Dies Farm Jumping Rope.

New York, April 6.—Louis Rivers of New Rochelle, 11 years of age has sacrificed her life in a successful effort to become the skipping rope champion of her neighborhood. To jump the rope 200 times has long been the championship record of the district. The child had often tried in vain to exceed it. When she began in her last attempt, Louise looked as well as usual. As she approached the 200 mark she was pale and tired, but she doggedly kept on jumping. At 218 the girl fell, screaming with pain and she died shortly afterwards at the hospital. The doctors found the lad had been attacked by some appendicitis.

Girl Dies During Thunder Storm.

Decatur, Ala., April 6.—While standing in the doorway of her father's country home in southeastern Limestone county, 15 miles from here, Miss Grace Yancey, a popular rural belle fell dead during a thunder storm. It was found that she was not struck by lightning, but had been suffering from a severe mental strain for several days, and it is the opinion of the attending physician that death was caused by a shock to her nerves, superinduced by the noise of a sharp clap of thunder. Death was almost instantaneous after the clap of thunder.

Last Hope Vanished.

When leading physicians said that W. M Smithart of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for consumption, coughs and colds kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then I have used it for over 10 years, and consider it a marvelous throat and lung cure." Strictly scientific cure for coughs, sore throats or colds; sure preventive of pneumonia. Guaranteed. 50c and $1.00 bottles at all drug stores. Trial bottle free.

Governor Rejects Bids for Bonds.

Montgomery, Ala., April 6.—Bids were opened yesterday for $8,304,600 refunding state bonds. One syndicate of New York, Birmingham and Montgomery bankers bid on a basis of 3.41 per cent, and another syndicate of the same three cities bid on a basis of 3.49 for 3½ per cent bonds, taking the whole lot. Better offers were received for smaller consignments. Bids were received for $267,000 3 per cent bonds at par and one for $7,000 at 102 for 3 per cents. Governor Jelks expresses himself as disappointed, expecting better offers.

LADIES ARE EARNEST IN HOSPITAL WORK

Enthusiastic Meeting Held at the Home of Mrs. Phillips.

COMMITTEES WERE ORGANIZED

To Assume the Work of Canvassing for Members and Collection of Dues, Which Will Be $1 Per Year—Officers Elected—Other Business.

In response to a call in the city papers, an enthusiastic and representative body of Gainesville women met Wednesday last at the residence of Mrs. Phillips to organize an auxiliary society to the Gainesville and Alachua County Hospital Association, and the cheerful co-operation promised of many who could not attend, as well as of those present, gives much encouragement to the promoters of the movement.

Mrs. Percival was unanimously elected chairman, Mrs. Richards, secretary, and Mrs. Bodiford, treasurer pro tem., and committees were appointed to draft constitution and by-laws, also to assume the canvassing for members and collection of dues.

The first committee consisted of Mrs. Hampton and Mrs. Phillips, and the second of Mrs. Colclough, Mrs. Jack Denby, Mrs. Will Hill and Mrs. J. F. McKinstry.

The collecting committee will divide the city into wards, and as the association contemplates the interest and membership of every woman in Gainesville and Alachua county, it will be seen that their labor will be very arduous unless those interested will save the collectors the trouble of seeking them by handing in their names and contributions some time before next Wednesday, when the collectors expect to make a report.

It is well to explain that the list of names of ladies who have already signed their willingness to join this association, which list was gotten up some months ago, has been mislaid, and it is requested that the signers of same will kindly give their names again to any one of the four ladies composing the collecting committee.

The next meeting of the association will be held on Wednesday, April 12, at which time the election of officers and the adoption of constitution and by-laws will take place, so a full attendance is earnestly requested.

Remember, the payment of $1 a year dues entitles one to membership and a voice in the management of the association.

Charged With Grand Larceny.

New York, April 6.—DeWitt Smith president of a railroad construction company, has been arrested by an attache of the district attorney's office on a warrant charging grand larceny. A large sum is said to be involved. The complaint against Smith was sworn to by Thomas Stokes, who charged the prisoner with misappropriating funds of the Stokes estate. The specific sum named in the complaint was $24,000, but it was said that an accounting was to be asked for nearly $1,000,000.

EX-STUDENTS HOLD A ROUSING MEETING

Want State to Appropriate Money to Properly Equip E. F. S.

SUPERINTENDENT POUND TALKS

In an Eloquent and Impressive Manner He Told of the Needs of the School, Which, if Furnished, Means a Half Thousand Students in Two Years.

In pursuance to the call which appeared in The Sun, the ex-students of East Florida Seminary assembled in the council chamber Wednesday evening for the purpose of discussing the needs of the Seminary in the matter of buildings, etc.

The meeting was called to order by Mayor W. R. Thomas, a graduate of the school, who explained its purpose.

Chairman Thomas presented Superintendent Jere M. Pound of the Seminary, who addressed the meeting on the needs of the institution and its future possibilities. "East Florida Seminary has always enjoyed one of the foremost positions of the schools of not only the State, but of the South," he said, "and the greatest disadvantage under which we have been laboring, to my knowledge since I have been in charge as superintendent, is the cramped condition of its quarters. It should receive proper aid from the State, and thus relieve this cramped condition of affairs."

The speaker, in an impressive manner, showed the urgent need of the Seminary for new and more commodious buildings, and new and more modern equipment, and said that with these secured the school would have five hundred students within two years. He laid particular stress upon the excellent work the school has accomplished and is still doing in the education of young women.

Addresses were made by W. N. Wilson, W. B Taylor, Dr. J. F. McKinstry, Jr., Dr. J. Harrison Hodges and others, and it was the concensus of opinion among those present that, considering the excellence of the work the school is doing, the State should appropriate $150,000 for new buildings and equipment.

Upon motion the chair was requested to appoint a committee to look after the passage of such a measure through the present Legislature, when the meeting adjourned.

Chairman Thomas will make the appointment during the present week.

Large Fire in North State Town.

Charlotte, N. C., April 6.—Fire at Rockymount, N. C., did damage estimated at $110,000 with $54,000 insurance. The losers are the Tar River Lumber company, $60,000, with $24,000 insurance; and the Rockymount Ice company, $50,000, with $30,000 insurance. The fire started in the dry kiln of the lumber company at 2 a. m. and was gotten under control at 8 o'clock. The wind was blowing at a lively rate and great fear was entertained that the business portion of the town might go.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit. Mich.

REAL ESTATE MARKET IS STILL LIVELY

Many Deals in Valuable Property Being Made Almost Daily.

THE DENHAM HOME IS SOLD

Was Purchased by Major W. R. Thomas, Who Sold His Property to W. L. Hill—Other Deals Are Being Consummated, But Not Yet Culminated.

Real estate continues to command a most important part in Gainesville's history, and within the past few days several deals of importance have been consummated.

Two of the most important of these deals were the purchase by W. L. Hill of the elegant home of W. R. Thomas, East Church street, corner North Oak avenue, and the subsequent purchase by Major Thomas of the beautiful and most desirably situated residence erected a few years ago by Captain W. B. Denham, East Church street. Both properties are among the most desirable in the city, being situated in one of the most delightful residence sections.

There have been within the past few days many other important real estate deals in process of culmination, but so far these matters are in such condition that The Sun has been requested to withhold publication.

"I have been figuring for the purchase of a fine lot on East Church street," remarked one of the prospective traders, "but for the present I cannot afford to say anything about it, because of the fact that the deal has not been quite closed, and 'there's many a slip 'twixt the cup and the lip,'" he good-naturedly added.

There is no doubt but that Gainesville is becoming every day on a more solid foundation, and the prosperity is here permanently. The class of people buying property as a rule are not speculators, but a solid class who have come to Gainesville and engaged in business here for various reasons, and they intend to stay. Every advantage is here, educational, religious, commercial and agricultural, and there is bound to be a great future for the city and its people.

Cures Coughs and Colds.

Mrs. C. Peterson, 625 Lake St., Topeka, Kan., says: "Of all cough remedies Ballard's Horehound Syrup is my favorite; it has done and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste." 25c, 50c, $1.00 bottle. Sold by W. M. Johnson.

POLITICAL ANNOUNCEMENTS.

For Marshal.

To the Voters of Gainesville:

I hereby announce myself as a candidate for re-election to the office of marshal, subject to the action of the citizens of Gainesville at the coming municipal election. I leave my case in their hands. If I have discharged my duty as marshal in the past, I ask their indulgence and their votes in future. If they do not think I have discharged my duty, then it rests with them. I will appreciate support, however, and promise as long as in the office to show partiality to no one. Respectfully, CHAS. PINKSON.

For Marshal.

To the Voters of Gainesville:

I hereby announce myself as a candidate for the office of marshal, subject to the action of the voters of Gainesville at the coming municipal election. Have always been a loyal Democrat, am always ready to render my aid and influence in support of right and justice, and if elected promise a fair and honest service, without fear or favor. Respectfully,

D. A. ROBERTSON.

For Marshal.

I hereby announce myself a candidate for the office of Marshal of the City of Gainesville, and solicit the support of all the voters of said city at the coming election of city officers.

If elected, I promise to give to all the people a vigorous and impartial exercise of the duties pertaining to that office. Respectfully,

RICHARD A. BACKER.

BOARD OF TRADE WILL ISSUE BOOK

Will Tell of Gainesville, Its Educational and Other Advantages.

120,000 WILL BE THE ISSUE

Enthusiastic Meeting of the Board of Trade, at Which It Was Decided to Push the City, Bible Conference, Chautauqua, Etc.

The Gainesville Board of Trade held a special meeting at its rooms in the City Hall Thursday afternoon.

The meeting was called for the purpose of conferring with Dr. Clarence B. Strouse in the matter of joint advertising of the citizens and business men and the Bible Conference and Chautauqua, as well as the city in general. It was decided to secure a number of electrotypes advertising Gainesville and its advantages, said electrotypes to be used on all stationery of business men, where no objection existed.

It was unanimously decided by the board to print for general distribution 120,000 twelve-page booklets or pamphlets advertising the Bible Conference, Chautauqua, Christian Workers' Institute and the city generally. This booklet will be issued as soon as practicable, and will be distributed through the efforts of Dr. Strouse and by other means during the coming summer. It will be a handsomely printed booklet on coated paper, with half-tone engravings, and will be something of credit to the city.

Economy of Heat and Health.

The average humidity in artificially heated houses is about 30 degrees; the average temperature, 70 to 74 degrees. It has been found by conclusive tests that a room with a humidity of 60 degrees and a temperature of 65 degrees seems warmer and more comfortable than a room of 72 degrees of heat and humidity of 30 degrees. Dr. Henry M. Smith says that if a room at 68 degrees is not warm enough for any healthy person it is because the humidity is too low, and water should be evaporated to bring the moisture up to the right degree. In other words, water instead of coal should be used to make rooms comfortable when the temperature has reached 68 degrees. As water is cheaper than coal, the rule should become a popular one.—Chicago Tribune.

A Clever Retort.

Sir William Fraser records a clever retort made by Lord Adolphus Fitz Clarence when in France in attendance on the English queen. He met the Prince de Joinville, who, as a French admiral, professed to be patriotically bellicose toward England in particular. He said to Lord Adolphus in a friendly manner: "You, my lord, and I are seamen. I have had but one dream in life—to command a smart French frigate and to lay my own alongside of an English ship of the same strength for twenty minutes." Lord Adolphus replied in a perfect spirit of courtesy, "I think, sir, that ten would be enough."

Colorado has another storm on its hands, and it has fanned a cool zephyr clear to Florida.

The Czar is in a peculiar situation. He hates to give up that he is whipped, but is awful tired of running.

Tennessee now has a "Jim Crow" street car law. The conductor will designate places for the blacks.

President Roosevelt, who is now en tour, prefers to eat rather than speak, and when called out at St. Louis kept on with his attack on trust beef.

A volcano has made Japan larger by giving her a new island. If they could only get a volcano to heave up a few ships they sunk for the Russians they might have another navy.

The Tennessee Legislature has appropriated $250,000 to Peabody college. The State educational institutions of Florida will perhaps be remembered by our own legislators.

The envious people of some of our sister States would perhaps like a small strip of our territory, so that they might be in it as a winter resort. But they are by fate assigned to the ironmonger's toil.

Weary Walter Retlan of Buffalo, N. Y., walked into Jacksonville, Tuesday, having made the journey on foot to pay an election bet. He will remain until June 1st, when he will receive money to return by rail.

Many people in this city are anxious to see a new hotel erected in Gainesville, but they will look in vain until we get a new charter and put in a system of sewerage. A system of sewerage is necessary for a city the size of Gainesville.

Jacksonville will have a bill presented to the Legislature to extend the limits of that city, so that the people who live in the new addition may enjoy the privileges, such as fire protection, city lights, city water and police protection. Those living on the outskirts of Gainesville will be able to enjoy similar privileges when we get our new charter.

The sunsets in Florida are equal to those of Italy, and on Wednesday evening those who watched the sky as the sun sunk in the West, saw the grandest picture ever beheld. The clouds stretched across the sky in furrows, each furrow being tipped with a delicate red on blue clouds. The whole scene was free to all, and The Birmingham (Ala.) News is informed that it was no bunco game.

The warm rains and weather of the past week have helped the flowers along amazingly. The roses in some of the gardens about the city are a sight to behold. The large number of rose bushes at the home of Dr. Lucretia Robb are full of blooms, and Mrs. G. S. Merchant on East Liberty street has a mammoth rose bush—a tree almost—that is filled with the handsomest of white blooms. The city of Gainesville never looked better than it does this spring, and it will improve with each year.

ABOUT FLORIDA.

Those who come to Florida and see for themselves are better able to judge of its comforts and the people than the editor of some paper firing at long range at what he can't see with a globe sight and will never get near enough to "taste and see" for himself of the good things here. Then again, there are people who are afflicted with incurable diseases who come here, and because they could not get cured, although many experience relief while here, find fault with nearly everything. Their friends at home get tired of seeing them around feeling so miserable and kicking at everything, and are glad to get them away. Such people will never be pleased wherever they go.

The talk that prices are exorbitant in Florida is not borne out by the facts. People who are able to do their own housework can rent rooms and live as cheap here as in the North, where a fifty dollar coal bill for a small heating stove is nothing unusual during the winter. And when a man in Florida goes much over seven or eight dollars for fuel he thinks it is tough.

Board can be had from $5 a week up, and the resort hotels, where people come for pleasure, have no higher rate than those at the summer resorts in the North. Prices vary both North and South. People who have money to throw at the birds, either North or South, will always find a flock to receive their offerings. You don't have to "blow yourself," but if you should want to, there is no law North or South to prevent you from doing it.

The persons who go away from home and expect to find the same comforts they are leaving will often be disappointed. Some who find fault at everything are getting better than they do at home. There will always be kickers, and they are often compelled to go away from home, and if it were not for their propensity of showing ugly resistance, people would not be aware of their existence.

It seems as though an appeal to the State Legislature to provide funds for the Florida Institute for the Blind and Deaf would not be necessary. It is the duty of the commonwealth to religiously look after its institutions, and in this particular instance, where the inmates are some of our worthy offsprings who are afflicted through no fault of their own, it would look as though no long drawn-out appeal would be necessary. The State has a bounden duty to perform; let its representatives see that it is done well. Who knows but that their own may be obliged to enjoy its comforts some day?

We are pleased to learn that the betrothal of Alfonso of Spain is denied, not so much on Fon's account as the girl's. Fon is too frankish yet to marry any young lady who is fit to be a queen. Besides, he might get the Irish stirred up of the young lady of Connaught. Any one who ever lived in an Irish ward and knows what mixen the Connaught men are, will tell Fon he was lucky to get out as easy as he did.

The snow storm in California last Sunday, which swept over the orange belt, was of no material benefit to the crop. In and about San Bernardino snow fell for two hours, and at Pomona it drifted badly.

Hair Color.

In the case of horses where the skin has been abraded by the harness if the galled region is left to itself the hair will grow in, but be colorless, while if oil is applied freely to the abrasion hair of a dark or normal color will be produced, thus indicating that the color is ordinarily due to the secretions of the skin sinking down as a sediment to the base of the hair follicle, where it is absorbed by the shaft of the hair.

Increase of Fertilizer in Alabama.

Montgomery, Ala., April 6.—The state department of agriculture issued a report showing that there has been an increase of more than 1,000 tons of fertilizer sold in Alabama during the season of 1094-1905, over the season of 1903-1904. The report came in the nature of a great surprise, especially in view of the fact that for months past the state has been swept by a campaign for a reduction in the use of fertilizers.

Officers of New National Bank.

San Francisco, April 6.—The Examiner says that it is generally understood in banking and financial circles that Jacob H. Schiff, E. H. Harriman and Colonel Dudley Evans, all of New York, are to be three of the new directors of the new consolidated Wells Fargo, Nevada National bank. They will be formally elected in the course of a few weeks.

Verdict of Not Guilty.

Doublins, Ga., April 6.—Alex Smith charged with the murder of Mrs. Katie Smith at Pearson last February secured a verdict of acquittal in the court here today. The whole of the last day was consumed in the trial which was hotly contested, the state being represented by Solicitor General Bennett and Judges Quincy and Osteen, and the defense by Allen & Rogers.

Lumber Company in Receiver's Hands.

New York, April 6.—Three small creditors have filed a petition in bankruptcy against the International Mahogany company, organized 16 months ago with a capital stock of $3,500,000 to exploit large tracts of mahogany timber in Cuba and Mexico. Judge Heat, of the district court, appointed John B. Lord, receiver of the assets with a bond of $2,500.

Many Cars Not Equipped.

Raleigh, N. C., April 6.—United States inspectors are now in this state making a very careful examination of cars, to see if the law regarding safety couplers, brakes, etc., is fully complied with. Large numbers of cars are being marked and put out of action until properly arranged. In the various yards here it is said that about 100 such cars were found.

KIRBY SMITH U. D. C. ELECTS DELEGATES

Interesting Meeting Held at Home of President Thursday.

MUCH ENTHUSIASM DISPLAYED

Kirby Smith Chapter is Determined to Send to Pensacola a Delegation Full of Peace and Harmony—Important Business Transacted by Chapter.

The April meeting of Kirby Smith Chapter, U. D. C., held Thursday at the home of the president, Mrs. J. N. Strobhar, was full of interesting business. Fifteen members were present.

The delegates to the State convention, which will meet at Pensacola, May 3rd, were Mrs. H. H. McCreary, chairman; Mrs. G. W. Moyers, Mrs. John Chesnut, Miss Maud Graham. Alternates: Mrs. Jack Haile, Miss Gertrude Dzialynski, Miss Myrtle Fennel, Miss Mary Strobhar. Mrs. J. N. Strobhar, chapter president, will also attend. The delegates go not instructed.

The Memorial Day committees were appointed as follows: Decorating Confederate monument and arranging memorial service—Mrs. J. F. McKinstry, Jr., and Mrs. John Chesnut. Making laurel wreaths for graves of Veterans—Mrs. Wainwright and Mrs. Strobhar, assisted by all of the members of the chapter. Decorating Veteran's graves in Jewish cemetery—Mrs. Wertheim, Mrs. Burkhim, Miss Graham.

The credential committee for 1905 is Mrs. Geo. W. Moyers, Mrs. A. W. Taylor, Mrs. Wertheim and Mrs. H. H. McCreary.

The names of two new members, Mrs. A. H. Emerson and Miss Helen Conway, were presented.

There will be a called meeting on the 27th inst. at the home of Mrs. T. J. Cone.

The exercises on Memorial Day will be as follows: The members of Kirby Smith Chapter will assemble at the home of Mrs. J. F. McKinstry, Jr., East Main street N., at 9 o'clock a. m., where carriages will be in waiting to convey them to the cemetery, where floral decorations will be placed upon the graves. At 5 o'clock in the afternoon there will be a simple memorial service at the monument, to which the public generally is invited.

Strawberry Movements.

While the majority of the truckers and growers of Alachua county are devoting their principal time to the raising of vegetables, there is quite an acreage in strawberries, and the movements from points along the Gainesville and Gulf south, and the Atlantic Coast Line south, have begun. A great many berries have been shipped already, notwithstanding that the movement did not commence until about ten days ago.

Probably the most extensive grower and shipper of strawberries in Alachua county is W. H. Sanders of Micanopy, whom it is said has also one of the handsomest and most prolific crops in the county. Mr. Sanders has been shipping berries for about a week, and now has quite a force gathering and packing this luscious fruit.

All berries shipped by Mr. Sanders from which he has received returns so far brought good prices in the market, since they were very choice. Mr Sanders expects to make a good thing off his crop this year.

CHILDREN.

IF YOU HAVE ANY THIS WILL INTEREST YOU.

"So many little boys and girls come into our store who are weak, thin-legged and hollow-cheeked," said Mr. Johnson, our well known druggist. "It seems a shame to allow them to remain so, for they will grow up into weak, sickly and nervous men and women without the vitality to enjoy life."

"If," continued Mr. Johnson, "the fathers and mothers of such children would believe what we say of Vinol, we would see a great difference in the appearance of the younger generation of this city. You know Vinol is not a patent medicine, and is just the tonic growing children need. It will make for them good, healthy flesh, sound bone, hard muscle and rich red blood.

"True, Vinol is a cod liver oil preparation, but it does not contain a drop of oil, or any bad tasting feature. It is so delicious that all children love it, yet it actually does contain all the medicinal curative elements found in fresh cods' livers, and is the most wholesome and best medicine for children we ever sold.

"We have many letters from grateful mothers whose children owe their health, and even life, to Vinol. The followiug letter from Mrs. C. Allen of New Bedford, Mass., tells what Vinol did for her children. She writes:

"'With two puny, ailing children, I was very much worried, and did not know what to do to create strength for them and to have them gain flesh. I tried almost everything, and as a last resort Vinol, and the benefit from that was great in a very short time. They are rapidly gaining flesh and strength, and I am satisfied Vinol will do as much for other children.'

"It is because we know what Vinol will do that we guarantee if it fails to make your children well, rugged and rosy, to refund your money." W. M. Johnson, druggist.

EARTHQUAKES IN INDIA.

Causes Death and Destruction—Food and Shelter Unprocurable.

Lahore, India, April 6.—The Hill station in the Dharmsala was practically razed to the ground by the earthquakes. The native quarter was entirely obliterated, many of the inhabitants were buried in the ruins, most of the houses in the European quarter were wrecked and nine persons were killed. The people are sleping in the open air, food is not procurable and the great distress prevailing is accentuated by keen frost.

The entire population is homeless and encamped on the adjoining hillsides without protection and practically entirely without medical aid.

A rescue party was dispatched to Dharmsala today. The Europeans killed at Dharmsala were Mrs. Robinson, wife of the colonel commanding the troops there, and her daughters, Mrs. Holderness, Captain Muscroft and four members of the Indian civil service.

Cheated Death.

Kidney trouble often ends fatally, but by choosing the right medicine E. H. Wolfe of Bear Grove, Iowa, cheated death. He says: "Two years ago I had kidney trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." All druggists guarantee them at 50c.

Porter Leaves French Capital.

Paris, April 6.—Ambassador Porter left here today for St. Petersburg. Before his departure Mr. Porter met the foreign minister, M. Delcasse. Details of their converzation naturally have not been disclosed, but there is the best reason to believe that the minister's taking up his duties at St. Petersburg led to a general exchange between him and M. Delcasse, relative to the existing political situation and the prospects. However, the meeting was informal.

A Dandy for Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c, $1.00 bottle. Sold by W. M. Johnson.

COUNTY WILL PAVE WITH HARD BRICK

Order Passed for Pavement of Walks About Square.

IS AN ENTERPRISING ACTION

Observing the Energy Displayed by the City in Constructing Hard and Durable Streets, Commissioners Decided to Do County's Share.

The Board of County Commissioners has passed upon an issue which will receive the approval of every enterprising taxpayer of the county. This was the order, agreed upon at the last meeting of the board, to pave with vitrified brick the sidewalk bordering on the four sides of the court house square with vitrified brick, which will make a durable walk, and which will last for a lifetime and greatly enhance the value of the property.

This matter has been under consideration for some time. The board having noted the enterprise of the citizens of Gainesville in constructing MacAdam and other substantial streets, felt it a duty they owed to constituents and the county property to place this walk.

The walk as specified in the order will be ten feet in width on all walks around the square, and the material used is to be of first-class vitrified brick. It is estimated that the walks can be laid at an expense not exceeding $1,000, which will at least greatly increase the value of Alachua county's most important and valuable possession.

The proper thing for the city to do, since this order has been passed, is to construct crossings at intersecting lines of the same material, which will no doubt be done at the proper time. The city has a progressive council, and it matters not what the result of the municipal election may be next Tuesday, that body will continue to be progressive, since none but good, energetic men have sacrificed themselves as candidates for the good of the city. This matter will no doubt be brought up before the City Council at a later date.

Child Dies of Heart Failure.

Social Circle, Ga., April 6.—Ruth Asbell, the little 3-year-old daughter of Mr. and Mrs. J. L. Asbell, was found dead in the yard at the home of her parents. Mrs. Asbell went to her front gate to meet a drayman delivering goods. The drayman saw the child, apparently asleep, and suggested to Mrs. Asbell that she move the little girl lest she contracted cold. Mrs. Asbell went to awake the child and discovered that she was dead. The cause of the death is suposed to have been heart failure.

Ballard's Horehound Syrup

Immediately relieves hoarse, croupy cough, oppressed, rattling, rasping and difficult breathing. Henry C. Stearns, Druggist, Shullsburg, Wis., writes May 20, 1901: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25c, 50c, $1.00. Sold by W. M. Johnson.

PAINFUL PERIODS

Suggestions How to Find Relief from Such Suffering.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davision Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham:—

"Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural; every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Larimore, N. D., writes:

Dear Mrs. Pinkham:—

"I might have have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Vegetable Compound sooner; for I have tried so many remedies without help.

"I dreaded the approach of my menstrual period every month, as it meant so much pain and suffering for me; but after I had used the Compound two months I became regular and natural and am now perfectly well and free from pain at my monthly periods. I am very grateful for what Lydia E. Pinkham's Vegetable Compound has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of American women.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

FAMOUS PAINTINGS.

Discovered by Accident and Bought For a Mere Song.

The strange vicissitudes through which some of the most highly prized and valuable pictures now preserved in public and private galleries have passed provides romantic reading. Take, for instance, the case of a sea-scape by Turner.

A Captain Treharne was spending a holiday in Barmouth. Chancing one day to be turning over the thousand and one articles in an old curiosity shop, he came across a dirty, ragged painting depicting a sea scene. It was painted on an oak panel, was not framed and was in a terribly discreputable condition. Prompted to buy the derelict, the captain secured possession of it for 8s. The purchaser took it home with him, the painting was cleaned and the varnish removed. Security then revealed the famous initials of Turner—"J. M. W. T."—and its authority was substantiated when submitted to an expert, who estimated its value at £3,500.

More remarkable still was the history surrounding Raphael's "Three Graces." While rummaging among a collection of old furniture in Italy a French art lover named Henri Raboul happened upon it. He acquired the painting for a few francs. On his return to France M. Raboul offered it to the Louvre for a modest $600, but the great Parisian art gallery refused to buy it. The owner finally disposed of it to an Englishman for $750. In a few years the painting passed through a number of hands. Finally it was purchased by the Due d'Aumale for $125,000.

More remarkable was the purchase of the second example of Raphael's art. A gentleman of Pinner while walking along the Harrow road one day had his attention arrested by a painted panel in the window and bought it for 12 cents. The gentleman took it home and cleaned it. At the same time he was mystified by the initial "R." on the back of the panel. It was a genuine Raphael, worth $3,500.—Stray Stories.

A Dare-Devil Ride

Often results in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at all druggists.

One Plant Family.

Three American food plants—the Indian corn, the potato and tomato—have revolutionized the food problem of the civilized world. Yet another American plant, though not a food producer, might be added to this list of new world conquerors. It has had a history even more remarkable than that of the others. The "Virginia weed" has penetrated far beyond the bounds of civilization and made conquests where the names of the other three plants have scarcely been heard.

The tomato comes of a family which is largely in the service of mankind. It gave us first of all the potato. The eggplant and the cayenne or red pepper plant, two other food producers, belong to it, the pretty race of petunias also and the Jerusalem cherry, the climbing bittersweet and that inhabitant of old fashioned gardens, the matrimony bush; the famous tobacco plant and the herb belladonna, of great medicinal importance. Our wayside weed, the common nightshade, whose bright berries we like to see in autumn, is also a humble member of this family.

ENGLISH SOCIETY WOMEN.

Caustic Comment on Their Love of Drugs and Liquor.

A prominent London journal prints the following indictment of the habits of many English society women: "A generation back it was among the lower classes we found intemperance rife, and then it was the beer of the people which supplied the means; today we find intemperance rampant from the highest to the lowest, the vehicle being alcohol, impure and simple, vile concoctions labeled indifferently brandy, whisky, gin. Our wearied, jaded votaries of pleasure seek temporary recuperation from these impure sources; then, when their day is done, they resort to their sulphonal, trional, morphia or what not in the vain hope of a night's good rest. Another most appalling fact that we have to face is the rapid increase in the number of women among the inebriate ranks.

"What is the daily life history of a woman in society? Too jaded by selfish indulgences, after a night of morbid sleep born of some favorite drug she rises to face a day's racing with its concomitant betting. Her breakfast inadequate, probably supplemented by brandy or whisky and soda; luncheon indigestible, savory but unhealthful bonnes bouches, liberal potations of champagne or, more likely, recourse to familiar brandy or whisky peg; a rush home, further pandering to a morbid appetite, more champagne, later perhaps a dance or many hours devoted to inevitable bridge, again brandy or whisky and soda, then bed, with sulphonal, trional, morphia or some equally noxious drug.

"What wonder that there is no time, no disposition, for domestic duties, no care for the family life that erst was the backbone of England! Physical and moral degeneration is the inevitable result."

The King of Mollusks.

The king of mollusks lives in the Indian and south Pacific oceans. He attains to a weight of 500 pounds and the shell is of the bivalve kind, and the shape is about the same as that of our common fresh water mussel. The gigantic tridacna is the largest mollusk known to have lived on the earth since the silurian age. It is found on the bottom of the shallow parts of the ocean, and the large individuals have no longer the power to move about. They lie on one side, and all about them the corals build up until King Tridacná is sometimes found in a well-like hole in the coral formation.—St. Nicholas.

ART OF GOLD BEATING

ONE OF THE OLDEST HANDICRAFTS IN THE WORLD.

The Way a Little Square of the Yellow Metal Is Expanded Into a Large and Almost Transparent Leaf by the Artisan's Hammers.

The art of the gold beater is one of the oldest handicrafts in the world and among those which have changed least. Much of the decoration of Solomon's temple is believed to have been covered with gold leaf, hammered to the requisite thinness by hand, as it is today.

The gold beater receives his material not in the form of the sixty penny-weight ingot in which it is cast, but in the form of a ribbon about an inch wide and twenty-four feet long.

This ribbon is first cut into 200 squares and placed in the "cutch," which is a pile of square pieces of a peculiar paper, part animal and part vegetable in composition, the preparation of which is a secret. The best cutches are made in London. A square of gold is placed between each two leaves and the whole mass is ready for the first beating.

This in done with an iron hammer weighing from twelve to seventeen pounds, while the cutch rests upon a granite block which is supported by a heavy wooden post.

Under the heavy, measured blows of the hammer the sheets of gold begin to stretch or expand until in half or three-quarters of an hour they have reached the edges of the cutch. They are then removed and with a thin strip of bamboo are cut into quarters, so that the 200 pieces become 800. Next comes the "shoder," a collection of 800 pieces of skin, four inches square, made from the intestines of cattle. As in the cutch, each piece of gold is placed between two leaves of skin, and bands of parchment or vellum are slipped over the whole pile to keep it together.

Another beating, this time with a hammer weighing from eight to ten pounds, now follows. This takes about an hour, during which the sheets of gold are all the time expanding.

The last stage is the "mold," which, like the cutch and the shoder, is composed of alternate leaves of gold and skin, but the mold is about five inches square and made up of gold beater's skin. The preparation of this is a jealously guarded trade secret.

The skin, like that in the shoder, is made from the intestines of the ox. It is translucent and not unlike rawhide in color. Although it will stand continuous beating without breaking, it will tear like a sheet of thin paper. The making of a single mold requires the intestines of 500 bullocks. Between each two beatings the skin is rubbed with baked and pulverized gypsum.

A mold contains 1,000 sheets. After the second beating the workman takes from the shoder a single leaf of gold at a time, handling it with bamboo pinchers and, when necessary, smoothing it with a rabbit's foot. With the strip of bamboo he cuts each sheet into quarters again, so that the original 200 have now become 3,200. One shoder, therefore, contains more than enough gold to fill three molds.

The final beating in the mold is done with a seven pound hammer and requires from three to four hours. By this time the gold leaf should have expanded again to the edge of the skins and should be of the requisite thinness, which is determined by holding it up to the light. If it transmits green rays it is done and will measure about one two-hundred-and-eighty-thousandth of an inch in thickness.

The hammers used in beating gold are slightly convex on the face. The art of the workman consists in so striking that the gold will always be thinnest in the center. He must pound with evenness all over the square in order that the sheets of gold may expand without losing their form, but at the same time he must keep the thickest part near the edges, so that when the sheets are finally trimmed to size the thicker portions may fall in the waste, to be recast. No machinery has ever been devised which will do this successfully.

The tools of the craft are interesting and peculiar. The rabbit's foot is exceedingly soft and just oily enough to prevent the gold from sticking, and the bamboo pliers and cutting slips are the only things with which it is possible to do this delicate work. The gold does not adhere to the fibers of the reed as it does to steel.

The gold beater performs all his work standing. The use of the heavy hammers in such continuous pounding would, one would think, impose an almost intolerable strain upon the hands and arms. The men say, however, that their arms never ache. The only place where "it catches them" is in the bend of the knee.

The lack of strain upon the arms is accounted for by the fact that the hammer rebounds. It is an astonishing but by no means a rare thing to see a gold beater change hands while the hammer is in the air and without losing a stroke.—Edward Williston Trentz in Youth's Companion.

Things that are worth doing are the flowers in the garden of God, and, like the flowers, they sometimes grow in unexpected places.—Sidney Allnutt.

Woman is throwing off her useless femininity and beating even her brothers in brusqueness, indifference and the art of being "casual."—Miss Ella Hepworth Dixon.

Monte Carlo is like the Serpent of Old Nile—beloved even though feared and most alluring if most deadly; ageless, arresting, retaining always that which she has won.—Lady Helen Forbes.

People Who Make Wills.

An English lawyer says: "The moment a man has £20 clear to leave he will begin spending money on testamentary disposition. I have even known a small farmer whose savings, after the realization of his property and the payment of his just debts, could not have exceeded a £10 note to spend £3 or £4 a year over a course of thirty years in having fresh wills drawn up. As a matter of fact, when he died at last a will was in force identically the same as the first one I had drawn up for him thirty years before. If he had saved the money he spent with me and had put it out at compound interest he would have had a very snug sum—well on toward four figures—to add to his estate."

RUSSIAN NIHILISTS.

The Tragedy From Which the Party and Its Creed Sprung.

Who was the first nihilist? How and where did nihilism first start? These questions are answered in the following narrative:

Exactly forty-three years ago, when Muravieff, the lieutenant of the present czar's father, was carrying out his cruel and barbaric crusade against Poles, a young student of that country attending the University of Dorpat returned home one day with half a dozen companions, whom he promised to entertain in his father's house. They entered, and a ghastly spectacle met their view. The whole family had been massacred, while the mother and sister of the young Pole had been brutally treated by Muravieff's cowardly soldiers, drunk with vodka.

The students, who were Russians, stood dumb with horror, while the bereaved boy sat down by a little table. His head rested on his left hand, while his right arm hung limply by his side. His companions expected a wild outburst of rage against themselves and their country, but the boy did not speak. He just sat there, pale and deathlike, while tears poured from his glassy eyes.

One of his friends went over to him and, touching him on the shoulder, said:

"Stanislaus! Stanislaus! Come to yourself again, and we will avenge this wrong!"

But the boy did not answer. In a few minutes the tears ceased to flow, the eyes turned upward, there was a heavy sigh, and Stanislaus fell dead from his chair.

The terrible shock had killed him.

Kneeling round the body of their dead companion, the Russian students bound themselves by a solemn oath to work out the ruin of the tyranny which had thus disgraced their fatherland. They secretly met afterward, and their creed was thought out and settled. It was the result of careful thought and was not wildly absurd or hysterical. It was as follows: "Liberty in religious belief, freedom of the press and in public meeting, government on the representative system and the redistribution of property." To secure these things they determined to resort to any measures—even assassination. And that has been the creed of the nihilists ever since.—Pearson's Weekly.

"Dog Trot" a Misnomer.

"Dogs have a variety of gaits," said the boss of the kennels; "therefore I can't understand why it is that people who describe a certain style of locomotion always call it a dog trot. Judging by the universality of that expression, a body would think that a dog never moves any other way than on a trot. But he does. All the gaits belonging to other four footed animals are also his. He runs, he lopes, he even racks and paces, so when a person in a hurry falls into a peculiar kind of canter there would be just as much sense in speaking of his gait as a dog run or a dog gallop once in awhile as always to call it a dog trot."—New York Press.

Percy Burney and Richard Carter of Green Cove Springs were among the arrivals in this city yesterday. The latter returned to his home, but Mr. Burney expects to remain here for a short time.

A. H. Blanding, one of the valued employes of the Dutton Phosphate Company, was in the city for a short time Wednesday on business. Mr. Blanding will be stationed at Holder until further notice.

Miss Helen Conway, a charming young lady of Savannah, sister of Miss Conway, has arrived, and is pleasantly located at the home of Captain and Mrs. J. N. Strobhar. This young lady may decide to make her home here.

Horses and Mules—I have a carload of horses and mules at Edwards' Stables. Among the lot are a few saddle horses and a number of strong, healthy, turpentine and farm mules. Will be sold at reasonable prices. Call and examine them. O. P. Morgan.

The front of the Williams block, East Main street, N., opposite the Brown House, is being greatly improved in appearance by a liberal application of paint. The effect is red background, with green and white trimmings, which will make the front quite attractive. The work is being performed under direction of Sternberger & Phillips, contractors and decorators, who have offices and stores in the building.

Dr. and Mrs. Clarence B. Strouse departed yesterday for Milledgeville, Ga., after several months pleasantly spent in this city. From Milledgeville they will proceed to their home in Salem, Va. Dr. Strouse has engagements in evangelistical work in New York City, and expects to enter upon his duties within a short short time. He promises to advertise Gainesville and its attractions at every opportunity during the coming summer.

READ THIS.

Stevenson, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very serious nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctors said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can say for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am

Yours truly,
W. C. Daniel.

A TEXAS WONDER.

GAINESVILLE, FLA

Mr. and Mrs. H. A. Ford and daughter, Miss Lila, went yesterday to Palatka, where last night they attended a musicale at which Miss Ford had been invited to perform on the piano. This was quite an honor to the little lady, who enjoys a reputation as a fine performer.

L. M. McCormick, manager of the Western Union telegraph office in this city, has returned from St. Augustine, where he has been for the past few weeks under the care of a specialist in the treatment of his eyes. Friends will be gratified to learn that his condition is greatly improved.

The New Paxton.

Those visiting White Springs, the famous Suwannee River resort, and who are guests of the New Paxton under the management of Herzog & Dzialynski, speak of that hostelry in the most complimentary terms. The hotel is situated conveniently near the spring. The rooms are commodious and comfortably furnished, and the table is supplied with the best to be had in the market.

It is a jolly crowd always sojourning at the New Paxton, and the proprietors are ever alert to the pleasure of their guests.

The proprietors are well and favorably known in Gainesville. Mrs. Herzog was formerly proprietress of the Commercial Hotel, which enjoyed a fine reputation among the traveling public.

Helping Hands Bazaar.

The Helping Hands of the First Presbyterian Church have decided to hold a bazaar and supper at the opera house on Tuesday and Wednesday, the 11th and 12th inst., further mention of which will be made later.
